

Module 1:	The ear and hearing	1
Lesson 1:	Hearing and hearing loss	2
1.1	Introduction	2
1.2	The importance of hearing	2
1.3	Hearing and listening	3
1.4	Hearing and a child's development	4
1.5	Hearing loss	5
1.6	The importance of early intervention	6
Lesson 2:	The ear	8
2.1	Introduction	8
2.2	The outer ear	9
2.3	The middle ear	11
2.4	The inner ear	12
2.5	The hearing nerve and the brain	13
2.6	Binaural hearing	14
2.7	Sound and the ear	15
Lesson 3:	Disorders of the ear	18
3.1	Introduction	18
3.2	Onset of hearing loss	18
3.3	Disorders of the outer ear	19
3.4	Disorders of the middle ear	21
3.4.1	Otitis media	22
3.5	Disorders of the inner ear	24
3.5.1	Congenital hearing loss: Genetic factors	24
3.5.2	Congenital hearing loss: Non-genetic factors	25
3.5.3	Acquired hearing loss	27
3.6	Types of hearing loss	28
3.7	Hearing loss descriptions	29

Module 2:	Hearing tests: Diagnosis of hearing loss	31
Lesson 1:	Early identification of hearing loss	32
1.1	Introduction	32
1.2	Suspecting the presence of hearing loss	33
1.3	Hearing screening	34
1.4	Informal observations	36
Lesson 2:	Early identification: Hearing tests	40
2.1	Introduction	40
2.2	Overview of an audiogram	41
2.2.1	Sound: frequency and intensity	41
2.2.2	Pure tones and complex sounds	42
2.2.3	The pure tone audiogram	43
2.2.4	The speech banana	44
2.3	Hearing tests	45
2.3.1	Case history and otoscopic examination	45
2.3.2	Behavioral testing	47
2.3.3	Physiological testing	49
Lesson 3:	Diagnosis of hearing loss	52
3.1	Introduction	52
3.2	Pure tone audiogram: Symbols	52
3.2.1	Pure tone audiogram interpretation	56
3.2.2	Degree of hearing loss	56
3.2.3	Type of hearing loss	58
3.3	Emotions associated with the diagnosis of hearing loss	59
3.4	The multidisciplinary team	61
Lesson 4:	Auditory processing disorder	66
4.1	Introduction	66
4.2	Auditory processing	66
4.3	Auditory processing disorder	67
4.4	Auditory processing assessment	68
4.5	Management of auditory processing disorder (APD)	69

Module 3:	Amplification technology: Helping my child to hear	71
Lesson 1:	Hearing aids	72
1.1	Introduction	72
1.2	How does a hearing aid work	72
1.3	Hearing aid selection	73
1.3.1	Physical characteristics: Hearingaid style	74
1.3.2	Physical characteristics: Earmolds	75
1.3.3	Electronic performance: Signal processing	77
1.3.4	Electronic processing: Hearing aid features	78
1.4	Hearing aid fitting	79
1.5	Hearing aid orientation	80
1.6	Hearing aid use	81
1.7	Hearing aid maintenance	83
1.8	Daily checks	84
1.9	Hearing aid troubleshooting	86
Lesson 2:	Cochlear implants	88
2.1	Introduction	88
2.2	How does a cochlear implant work?	89
2.3	Is my child a cochlear implant candidate?	90
2.4	Process of obtaining a cochlear implant	92
2.5	Surgery and fitting of cochlear implant	93
2.6	Orientation	94
2.7	Daily checks	95
2.8	Troubleshooting	96
2.9	Addressing parental concerns	97
2.10	Hearing aids versus cochlear implants	99
Lesson 3:	Bone-anchored hearing systems	102
3.1	Introduction	102
3.2	How does a bone-anchored hearing system work?	103
3.3	Candidacy	104
3.4	Benefits of a bone-anchored hearing system	105
3.5	Bone-anchored hearing system trial	106
3.6	Bone-anchored hearing system surgery	107

3.7	Fitting and orientation	108
3.8	Daily checks	109
3.9	Troubleshooting	110
Lesson 4:	Assistive listening devices	112
4.1	Introduction	112
4.2	Importance of assistive listening devices	112
4.3	How do assistive listening devices work?	114
4.4	Assistive listening device styles	115
4.5	Unilateral hearing loss	116
4.6	Classroom assistive listening devices	116
4.7	Frequently asked questions	118
Module 4:	Listening and language development	121
Lesson 1:	Listening	122
1.1	Introduction	122
1.2	The brain, listening and hearing loss	123
1.3	Effective listening	125
1.4	Listening skills	131
1.5	Auditory development scale	137
Lesson 2:	Language	140
2.1	Introduction	140
2.2	Understanding language	141
2.3	Identifying preverbal behavior	144
2.4	General language development strategies	144
2.5	Language development and daily routines	147
2.6	Expressive language	152
2.7	Overcoming limited resources	155
2.8	Language development norms	155

Module 5: Preparing for school: Literacy and numeracy **157**

Lesson 1: Literacy **158**

1.1	Introduction	158
1.2	Literacy socialization	159
1.2.1	Literacy socialization and a child with hearing loss	160
1.3	Phonological awareness	162
1.3.1	Phonological awareness and a child with hearing loss	163
1.4	Printed word and alphabet knowledge	164
1.4.1	Printed word and alphabet knowledge and a child with hearing loss	165
1.5	Reading	166
1.5.1	Reading and a child with hearing loss	167
1.6	Writing	169
1.6.1	Writing and a child with hearing loss	170

Lesson 2: Numeracy **172**

2.1	Introduction	172
2.2	Numbers	173
2.3	Patterns	174
2.4	Shape and space	175
2.5	Measurement	176
2.6	Data collection	177

Module 6: The nature of inclusive education **179**

Lesson 1: Introduction to inclusive education **180**

1.1	Introduction	180
1.2	Definition of inclusion	181
1.2.1	Difference between integration and inclusion	182
1.2.2	Characteristics of inclusion	182
1.3	Benefits of inclusion	184
1.4	School requirements	188

Lesson 2:	Barriers associated with inclusion	190
2.1	Introduction	190
2.2	Definition and types of barriers	190
2.3	Barriers specific to a child with hearing loss	191
2.3.1	Hearing	191
2.3.2	Listening barriers	193
2.3.3	Language barriers	193
2.3.4	Social barriers	195
2.3.5	Classroom barriers	196
2.3.6	Teaching barriers	197
2.3.7	Barriers due to the attitude of the teacher and the community	199
2.3.8	Curriculum barriers	200
Lesson 3:	Factors to consider for inclusion	202
3.1	Introduction	202
3.2	The importance of Early Childhood Development (ECD)	203
3.2.1	How to approach a school for young children (0-6 years)	204
3.2.2	School requirements	206
3.3	Bridging ECD and formal schooling (6+ years of age)	208
Lesson 4:	School and family meeting	210
4.1	Introduction	210
4.2	Introducing the family to the school	210
4.2.1	Home environment	211
4.2.2	Hearing loss	213
4.2.3	Hearing devices	214
4.2.4	Reports from other professionals	216
4.3	Introducing the child to the school	217
4.4	Introducing the school to the family	219

Module 7:	Teaching methods used in an inclusive classroom	221
Lesson 1:	Differentiated teaching	222
1.1	Introduction	222
1.2	Differentiated teaching of children with hearing loss	223
1.3	Addressing barriers to learning	223
1.3.1	Listening barriers	224
1.3.2	Spoken language barriers	226
1.3.3	Comprehension barriers	227
1.3.4	Curriculum barriers	231
1.3.5	Learning material barriers	231
1.3.6	Barriers due to exhaustion	232
Lesson 2:	Differentiation methods and techniques	234
2.1	Introduction	234
2.2	Content and process	236
2.3	Product: How learning is assessed	237
2.4	Learning environment: The classroom	238
Lesson 3:	Other differentiation strategies	240
3.1	Introduction	240
3.2	Flexible group teaching	240
3.3	Rephrasing	243
3.4	Other	243
3.5	What parents should know about differentiation	245
Lesson 4:	The individual education plan	246
4.1	Introduction	246
4.2	Benefits of the Individual Education Plan	246
4.3	Management of the Individual Education Plan	247
4.4	The Individual Education Plan team	248
4.5	Preparation of an Individual Education Plan	249
4.6	Individual Education Plan form and meeting agenda	250
4.7	Implementation and monitoring of the Individual Education Plan	254

Module 8:	Additional classroom support	255
Lesson 1:	Preparation of the classroom	256
1.1	Introduction	256
1.2	Physical environment: Classroom acoustics	257
1.3	Physical environment: Positioning of the child with hearing loss	258
1.4	Technology: Hearing and assistive listening devices	258
1.5	Role players: Teacher	260
1.6	Role players: Classroom assistant	260
1.7	Role players: Child with hearing loss	262
1.8	Other: Classroom discipline	262
Lesson 2:	Individual interactions, small groups and tutorials	264
2.1	Introduction	264
2.2	Individual interactions	264
2.2.1	Individual interactions: Practical guidelines	266
2.2.2	Individual interactions: Special considerations	267
2.2.3	Individual interactions: Materials	269
2.3	Small group sessions	270
2.3.1	Small group session: Practical guidelines	271
2.3.2	Small groups: Material	274
2.4	Tutorials	276
Lesson 3:	Other additional support strategies	278
3.1	Introduction	278
3.2	Homework	279
3.3	Providing support for tests and examinations	280
3.4	Concessions	281
3.5	Analysis of tests and examinations	282
3.6	Managing group work	283

Module 9:	Music and the classroom	285
Lesson 1:	Music and early childhood development	286
1.1	Introduction	286
1.2	Music and language development	287
1.3	Processing of music	288
1.4	Key elements of music and how they relate to speech and language	291
1.4.1	Pitch	292
1.4.2	Rhythm	295
1.4.3	Timbre	298
1.4.4	Dynamics	299
1.4.5	Form	300
1.5	Music and the brain	300
Lesson 2:	Music and the classroom	302
2.1	Introduction	302
2.2	Memory skills	303
2.3	Visual and auditory discrimination	304
2.4	Reading	306
2.5	Phonological awareness	307
2.6	Social and emotional benefits	308
Lesson 3:	How to use music in the classroom	310
3.1	Introduction	310
3.2	Recommendations for parents	311
3.3	Recommendations for music teachers	313
3.4	General teaching considerations and suggestions	314
3.4.1	Improve phonological awareness	317
3.4.2	Enhance retention	318
3.4.3	Enhance academic teaching	318
Glossary		320
